

# Job Description

**About the company:** Composite Resources is an innovative, rapidly growing manufacturer of composite components and tooling. Our constantly evolving portfolio of projects includes components for clients in the aerospace and defense industries. At Composite Resources, we embrace a culture defined by teamwork, ownership, and accountability. We offer a competitive benefits package including PTO, paid holidays, and 401K. Composite Resources is an equal opportunity employer.

**About the position:** As a Composite Technician, you will be hands-on involved in composite projects working in a clean, team oriented environment. We are constantly using new processes and materials and taking on new projects so, if you work well independently and have the desire to learn and grow, this would be a perfect fit for you.
