

Prosthetic & Orthotic Composite Technician

Designing and fabricating devices to help people walk

Ft. Worth, Texas

Full Time Position

Full Benefits & PTO

No experience required, but composite training preferred.

Baker Orthotics & Prosthetics has been producing custom-fabricated devices of the highest quality since 1946. Many advances have been made in the field of O&P, but the Baker philosophy of hard work and putting the patient first has not changed. We believe in embracing the newest technology and latest innovations to provide the best results for each of our patients.
